## The Magic is Building

**Harry Potter**

Harry Potter thought he was just an average boy, until he received an invitation to enroll at Hogwarts. There he learns the truth about his parents and himself: magic runs in the family! Now he's making new friends, confronting powerful enemies, and learning to be the greatest wizard of them all!

**Ron Weasley**

Ron is one of Harry's best friends. Ron isn't as good with magic as Harry, but he's always ready to help when there's trouble.

**Hermione Granger**

Hermione is another good friend of Harry's. She usually be found with her nose in a book of spells or a history of wizardry.

**Hagrid**

Hagrid is the Keeper of the Keys and Grounds at Hogwarts. Though he looks fierce, he is actually a friend to Harry. Hagrid loves animals, and has always wanted a dragon as a pet.

**Professor Albus Dumbledore**

Dumbledore is a wise and powerful wizard and the headmaster of Hogwarts School. He has been a great help to Harry on a number of occasions.

**Professor Snape**

Professor Severus Snape teaches Potions at Hogwarts and is the head of Slytherin House. He doesn't like Harry and does his best to make life difficult for him.

# MEET DANIEL RADCLIFFE!

Eleven year old Daniel Radcliffe is living a young actor's dream -- playing Harry Potter in the upcoming movie *Harry Potter and the Sorcerer's Stone*. When he's not acting, he's a fan of the Fulham Football Club and Formula One Racing. Daniel answered questions about the world of *Harry Potter* and the new movie:

**Q: Were you a fan of the *Harry Potter* books before you got the part?**

A: I had read the first two, but at that stage in my life, I didn't really like reading. Then after I got the part I read all four of the books back to back. I even read the second twice because that is my favorite, and they helped me to branch off onto other books like *stepping stones*. I am quite a big reader now.

**Q: *Harry Potter* is a worldwide phenomenon. Why do you think it is such a huge success with adults and children?**

A: Because it is such an original idea. And it's never been done before. I think. And it's magic... and just the ideas that JK Rowling came up with are amazing.

**Q: Other than magic, what makes the character of Harry so endearing to the world?**

A: The character of Harry jumps off the page at you. And he's so real... I can think of a few boys like him. People can relate to him in whichever way because there's so many elements to Harry that make him so likeable.

**Q: How do you think you are like Harry?**

A: I think I'm very determined. I think I am also loyal, and think that if some of my friends got in trouble I'd stand up for them.

**Q: Why do you think people will want to see the film version?**

A: I think that anybody who has read the books will want to see if the film is how they've imagined it to be and if all the characters and their personalities are how they imagined it. And the movie is so true to the books and the story, I think they will be very surprised and happy.

# TRICK or TREAT!

For 2 or more players.

It's Halloween, and the International Soccer All-Stars are ready to do some trick or treating! Their team bus has just pulled into Jack Stone's hometown, and now it's time for costumes and candy!

**Instructions:** To play, you'll need two or more of your favorite mini-figures, a six-sided die (like the ones used in most board games), and some LEGO® bricks.

Players place their mini-figures on "Start." On each turn, a player rolls the die, moves the number of spaces, and follows any instructions on the board.

The player who finishes the game with the most LEGO bricks is the winner!
